†Deceased

1944

During the year 1944 Presbyterian Hospital rendered 136,888 patient days of service, the greatest number in its history. The occupancy averaged 85.2% or, if the children and maternity departments are excluded, 91.0% for adult medical and surgical beds. There were 13,128 patients admitted to the hospital and 1,127 births in the maternity department. Of the patient days' care, 10.8% were free and 6.0% part pay.

The following is a summary of the financial results of the year's operation:

Operating deficit of Hospital and	
School of Nursing, including charity	\$ 92,007.74
Operating deficit of Central Free Dispensary	20,228.09
Operating deficit of Rush Medical College	16,314.97
Non-operating expenses	19,018.57
	<hr/>
	\$147,569.37

Funds to meet these deficits and non-operating expenses were provided as follows:

Endowment Fund dividends and interest	\$113,680.61
Centenary Fund contributions	27,810.00
Contributions from churches	4,919.92
Contributions from individuals (To Hospital)	4,832.61
Contributions from individuals (To Dispensary)	4,320.26
Woman's Board contribution to hospital expenses	5,232.75
Other non-operating income	29,163.93
	<hr/>
	\$189,960.08

Receipts exceeded expenditures by \$42,390.71. Of this amount \$40,000.00 was used to liquidate operating deficits of previous years and \$2,390.71 added to profit and loss.

No reserve for depreciation of buildings was included in operating expense, the hospital being dependent upon special contributions for major repairs and improvements.

The principal of the Endowment Fund amounted to \$4,391,381.09 on December 31, 1944. The following additions to this fund were received during the year:

William Bross Lloyd (In Memory of William Bross)	\$ 9,000.00
Margaret Day Blake (In Memory of Albert M. Day)	1,000.00
John V. Farwell	5,000.00
Julia Tyrrell Trust (In Memory of Henry H. Forsyth)	2,383.50
Estate of Frederick T. Haskell	1,000.00
Estate of Warren A. Lamson	10,000.00

Marjorie R. Hopkins (In Memory of Henry Spencer Robbins)	3,000.00
Estate of Mary Belle Slee	2,732.96
Estate of Elsie K. White	158,699.12
Edward Foss Wilson (Honoring his father, Thomas E. Wilson)	10,000.00
Miscellaneous	13,000.00
Through Woman's Board	11,156.30
	<hr/> \$226,971.88

In addition to bequests and gifts to the Endowment Fund and the contributions to operating expenses, contributions amounting to \$127,910.14 were received for education, research, and other special purposes.

Contributions of the Women's Board to the work of the hospital and dispensary amounted to a total of \$31,686.05 for the year.

Central Free Dispensary, the out-patient department of Presbyterian Hospital, continued its valuable service to the community. There were 4,249 new patients during the year and a total of 86,094 patient visits. This was a decrease of 8,775 patient visits over the previous year, which was undoubtedly due to increased employment and higher wages.

At the request of the Council of Social Agencies a Nutrition Clinic, under the direction of a dietitian, was organized for the purpose of instructing dispensary patients regarding proper diets. The work of the clinic has been very valuable not only in instructing patients regarding special diets but also in informing patients as to the method of providing adequate diets with rationed foods.

Services contributed by the staff of the hospital, together with the generous support of the Community Fund and the Chicago Welfare Administration, have enabled the dispensary to continue a high standard of medical care to needy patients.

The School of Nursing at the request of the Government increased its enrollment to 278 students, 263 being members of the Cadet Corps.

This increased enrollment has greatly overtaxed the housing facilities; which could not be increased as the present school is to be torn down to make way for the Congress Street Superhighway. Various plans are now being considered to provide future facilities for the school.

Although there is a great shortage of graduate nurses a high standard of nursing service has been maintained, thanks to the valuable assistance rendered by the students and the volunteers.

The opportunities for productive research by the staff of the hospital were greatly enlarged during the year by an annual grant for six and one-half years

by the trustees of the Otho S. A. Sprague Foundation, the generosity of Mr. William Kidson, and the estates of Dr. and Mrs. Arthur Dean Bevan.

These funds will make possible the full utilization of the excellent laboratories in Rush Medical College and the opportunities for clinical research in the hospital and dispensary. They will also provide fellowships for young men returning from military service who wish to spend part of their time on research.

The educational program of Presbyterian Hospital, in affiliation with the medical school of the University of Illinois, has been developing most satisfactorily, as is described in full in the section "Medical Education and Research."

The tumor clinic of Presbyterian Hospital, started by Dr. Francis H. Straus and associates before he entered the army and carried on in his absence by Dr. Danely P. Slaughter, examines about sixty patients each month, including an average of twelve new patients. The departments of surgery, radiology, ear-nose-throat, gynecology, and pathology are represented. The clinic is completely equipped for radiation therapy, and radon is available from Illinois Research Hospital for dispensary patients. About 5,000 x-ray treatments are given at Presbyterian Hospital each year. Plans are being laid to utilize in research and education the generous funds given to us for this purpose.

Both at home and abroad, in all parts of the world, members of the medical and nursing staffs are proving their mettle and bringing new honors to Presbyterian Hospital.

Our General Hospital Thirteen spent most of 1944 in New Guinea, the main unit having moved from Australia in March. The task of constructing a hospital had not been completed by July, when the nurses arrived, for engineers and construction workers were frequently diverted to other jobs. However, work went gradually ahead, and by the end of the year some six hundred patients were being cared for in tents and prefabricated wards. Several of the original staff have been transferred to other medical divisions, where they are filling positions of high responsibility.

A sorrowful message from General Hospital Thirteen was the announcement of the death of Captain Nelle Crout, chief nurse.

Another death is sadly recorded, that of Dr. Frederick B. Moorehead, for many years the attending oral surgeon of the hospital medical staff.

The heart-felt appreciation of the Board of Managers and all hospital associates are extended to our volunteers, whose help has been of inestimable value, and to the student nurses, whose fine assistance has aided immeasurably in maintaining adequate nursing service. To the regular employes and devoted friends, whose constant support and loyalty are high compliments to the value of the work it is privileged to do, Presbyterian Hospital offers its sincere thanks.

Medical Education and Research

The year 1944 was one of the most eventful in the history of Rush Medical College and Presbyterian Hospital. The hospital was the recipient of gifts from the Otho S. A. Sprague Foundation, Mr. William Kidston, the estates of Dr. and Mrs. Arthur Dean Bevan, and an allocation of funds from the University of Illinois College of Medicine which will make possible a greatly augmented program of medical education and research. The realization of this program will insure the future of Rush and Presbyterian Hospital as a great center of medical education and research, as well as of patient service.

The Committee on Education and Research, consisting of Dr. R. C. Brown, Dr. Vernon C. David, Dr. Herman L. Kretschmer, Dr. L. C. Gatewood, Dr. H. C. Breuhaus, Dr. R. K. Gilchrist, Dr. Ernest E. Irons, Dr. William G. Hibbs, Mr. Alfred T. Carton, Mr. C. B. Goodspeed, Mr. Horace W. Armstrong, and Mr. Edward D. McDougal, Jr., has jurisdiction over the expenditure of funds.

At the request of the hospital, Executive Dean Raymond B. Allen of the Chicago Colleges of the University of Illinois recommended the appointment of Dr. George E. Wakerlin, professor of physiology and head of the department in the College of Medicine, as assistant dean to coordinate the program of the Rush-Presbyterian Division of the College with the work in the various departments of the university. This appointment was approved by the university and the Board of Managers of the hospital. Dr. Wakerlin is an alumnus of Rush Medical College of the class of 1929.

The program being developed envisions four departments of research and teaching in the basic medical sciences, namely, pathology, physiology, biochemistry, and bacteriology. The first three departments will be organized as rapidly as possible and that of bacteriology somewhat later. Each department will be headed on a full-time basis by an outstanding man with the rank of full professor in the University of Illinois College of Medicine. Tentative departmental budgets for pathology, physiology, and biochemistry have already been set up, and each provides, in addition to the head, for one full-time investigator with assistant professor rank, two full-time junior research workers or assistants, and adequate basic funds for the support of the research program of the department. In addition, a central fund will be maintained under the jurisdiction of the Committee on Research and Education for the support of specific research projects in these as well as the clinical departments of the hospital and Rush-Presbyterian Division of the university, and these monies will be distinct from the various research funds now assigned to and administered by specific clinical departments.

The departments of pathology and biochemistry will continue their particular services to Presbyterian Hospital and Central Free Dispensary, the department of biochemistry to be responsible for the chemical and basal metabolism laboratories and the department of pathology for the other service laboratories of the hospital and dispensary. The head of the department of pathology will also carry the title of attending pathologist to Presbyterian Hospital and will be assisted by a half-time director of hospital and dispensary laboratories, in addition to the staff already described. The head of the department of biochemistry will carry the title of attending biochemist to the hospital and dispensary.

The departments of pathology, biochemistry, physiology, and bacteriology will not only be productive in their respective fields, with emphasis on the clinical as well as the fundamental aspects of these medical sciences, but will also effect research liaisons with the departments of medicine, surgery, pediatrics, obstetrics and gynecology, and the other departments of the Rush-Presbyterian Division.

The program includes significant physical changes in the Rawson and Senn buildings. The clinical departments of the dispensary will be housed on the first three floors; the fourth floor will be occupied by the departments of biochemistry, physiology, and bacteriology; and the fifth floor, as now, by the department of pathology. The sixth floor of the South Amphitheater in the Senn Building will be given over to modern animal quarters, particularly for dogs, and the present sixth floor quarters of Rawson for experimental animals will be modernized. The seventh floor of the South Amphitheater will be transformed into a modern laboratory for teaching clinical, including surgical, anatomy.

The present undergraduate teaching of third and fourth year students of the University of Illinois College of Medicine by the hospital and dispensary staffs will be continued and expanded as faculty members of the Rush-Presbyterian Division return from war service. The program envisions extensive teaching at graduate levels. The basic science departments will cooperate with the clinical departments of the hospital and Division in these educational responsibilities.

This program of medical education and research at a university level, coordinated with the clinical work of the members of the staff of the hospital, will be an important factor in maintaining and augmenting the splendid tradition of Rush and Presbyterian Hospital.

Statistics for Year 1944

HOSPITAL

TOTAL ADMISSIONS 13,128

Adults	10,479
Children	1,522
Newborn	1,127

TOTAL DAYS' CARE OF PATIENTS 136,888

Private	41,980	Full Pay	113,896*
Ward	86,217	Part Pay	8,256
Infants	8,691	Free	14,736

*Ward patients who pay quoted rates included as full pay.

CENTRAL FREE DISPENSARY

(Outpatient Department)

Total Visits	86,094
Percentage Free	69.00%
Total Number of Patients	9,239
New Patients	4,249
Number of Dispensary Patients Hospitalized	1,087
Children from Pediatrics Department	110
Children from Other Departments	434
Adults	543
Operating Income	\$ 37,103.56
Relief Agencies, Donations, etc.	82,432.48
Total Income	\$119,536.04
Total Expense	\$135,443.87
Excess of Expense over Income	\$ 15,907.83

Woman's Board Activities

The year of 1944 was a successful one for the Woman's Board. The results are shown in an increase in the funds raised by standing committees, which totalled \$17,276, against \$15,355 in 1943. Other special gifts, income from investments, and returns on past loans to nurses brought in the grand total of \$29,077. The disbursements were \$31,683, due to a carry-over of funds from 1943.

During 1944 the Board reached its goal of \$25,000 for an endowment for free maternity care. This was raised during the sixtieth year of the hospital, from May 1, 1943, to May 1, 1944. A special gift of \$11,250 was appropriated for the equipment of the new maternity floor. The Thanksgiving Offering, which amounted to \$2,221, was used for purchase of new linen for that department. The Babies Alumni Fund continued to enroll newborn babies on its birthday record and collected nearly \$1,000 towards free care for the babies in maternity. The new waiting room on this floor for husbands and parents was remodeled, furnished, and decorated in memory of Mrs. Albert B. Dick by her grandchildren, Mrs. A. W. Cook and Lt. A. B. Dick III.

A new fund was established, to be handled by the social service department, to supply any form of necessary appliance for the patient unable to pay for it, thus enabling him to take his normal place in the world as soon as possible. This is to include braces, artificial limbs, dentures, eye glasses, etc. If possible the financing will be on a loan basis.

The Gift Shop's gross receipts for sales during the first year of operation were \$20,717. These repaid the hospital for all costs of installation and left a profit of \$2,343, of which \$1,951 is represented by inventory. Although the Shop is small, its location is ideal. The buying has been in charge of a committee headed by Mrs. Walter Graff, who has travelled to New York, given days of time, and chosen the stock with great discrimination. The profits are in large measure due to donations of many articles for infants, principally babies' sweaters. An ingenious cart to carry and display many items was made in the work-shop of the hospital for use on the floors.

The Volunteer Committee has kept in touch with the Director of Volunteers and instigated the custom of an annual tea in recognition of service rendered to the hospital. At that time insignia were awarded those who had served a minimum of one year and had fulfilled the hour requirements. Our hospital is now one of those which award the Hospital Volunteer Service pin under the regulations of the American Hospital Association. During 1944 an average of more than 200 volunteers, including some 30 men, gave over 47,000 hours. Recognition is also given to the many volunteer hours spent in the homes and churches by women who sewed 15,000 articles for use in the housekeeping, social service, ma-

ternity, and children's departments. Others spent hours and sacrificed sugar to make and contribute 2600 glasses of jelly for ward patients.

The library is fully supported by the Board and demonstrates its value in the total of 22,227 books circulated. About 700 books were donated and \$170 for the purchase of others.

Due to the wide representation on the Board, stretching from Chicago Heights on the south to Lake Forest on the north and to Itasca, Wheaton, and Hinsdale on the west, information, interest, and donations are spread over a wide area.

We regret to report the death of the following six members: Mrs. Lincoln Coy, Mrs. Albert B. Dick, Mrs. Frank Hoover, Miss Frances Keegan, Mrs. George J. Schmitt, and Mrs. George L. Swift.

ELIZABETH D. SHOREY, *President*

Gifts of Unceasing Value

\$ 300 designates a free bed in the adult wards for one year.

\$ 5,000 names a bed in the Children's Ward in perpetuity.

\$ 5,000 names an adult bed during one life.

\$ 7,500 names an adult bed in perpetuity.

\$10,000 names a room in the Private Pavilion as a perpetual memorial.

\$20,000 names a four-bed ward as a perpetual memorial.

\$50,000 names a ten-bed ward as a perpetual memorial.

There are other needs for funds for the care of the sick, operation of Central Free Dispensary, and for the Research and Teaching Program, which funds will be expended in accordance with the purpose of the gift. The Board of Managers or the Administration of the hospital will be pleased to indicate these needs.

Form of Bequest

I give and bequeath to The Presbyterian Hospital of the City of Chicago, Chicago, Illinois, a corporation organized not for profit under the Laws of the State of Illinois, for its corporate purposes, the sum of..... dollars.

Form of Devise (Real Property)

I give and devise to The Presbyterian Hospital of the City of Chicago, Chicago, Illinois, a corporation organized not for profit under the Laws of the State of Illinois, for its corporate purposes, all that, etc. (Here describe the property.)

The Presbyterian Hospital

OF THE CITY OF CHICAGO

FOUNDED IN 1883

Approved by:

American College of Surgeons

American Medical Association

(for the training of interns and residents)

Member of:
